

## HYPER HEALTH'S HYPERBARIC OXYGEN THERAPY WILL CHANGE YOUR LIFE. START YOUR JOURNEY TODAY!

Hyperbaric Oxygen Therapy (HBOT) is a medical treatment recognized by the FDA and the American Medical Association (AMA) that administers pressurized oxygen via a specially designed chamber to deliver 100% pure oxygen to the body.

This pressurized chamber enables oxygen to dissolve within the blood and other bodily fluids effectively. As a result, users experience a type of "supercharging" to their body's regenerative capabilities, producing dramatic benefits.

When oxygen reaches damaged tissues or swollen arteries, it stimulates the release of healing chemicals, allowing the body to produce new cells and regenerate itself from the inside out.

*Hyper Health HBOT chambers enable users to breathe both ambient O<sub>2</sub> and pure pressurized oxygen. Each unit includes an internal air conditioning system for comfort.*

## 22 FDA APPROVED CONDITIONS FOR HBOT TREATMENT

Air or Gas Embolism	Decompression Sickness	Necrotizing Fasciitis Soft Tissue Infections
Anemia	Delayed Radiation Injury (Soft Tissue & Bony Necrosis)	Osteomyelitis (Refractory)
Autism or Neurological Disorders	Diabetic Foot Ulcers	Radiation Damage
Brain Infections	Enhancement Healing in Select Problem Wounds	Skin Grafts
Carbon Monoxide Poisoning	Exceptional Blood Loss (Anemia)	Skin Grafts & Flaps (Compromised)
Clostridal Myositis & Myonecrosis	Intracranial Abscess	Stroke
Crush Injury, Compartment Syndrome, & Other Acute Traumatic Ischemias	Lack Of Oxygen	Thermal Burns
		Traumatic Injuries

## ADDITIONAL HBOT TREATMENTS

Anoxic Brain Injury	Complex Regional Pain Syndrome	Interstitial Cystitis	Spinal Cord Injuries
Arthritis	Complications of Scleroderma	Lyme Disease	Sports Injuries
Cancer (Treatment Synergy)	Concussion & Traumatic Brain Injury	Migraine/Headache	Surgery Preparation & Accelerated Recovery
Cerebral Palsy	Crohn's Disease	Multiple Sclerosis	Ulcerative Colitis
Chronic Fatigue Syndrome	Fibromyalgia	Pancreatitis	Ultimate Hangover Cure
Chronic Pain	Inflammatory Bowel Disease	Retinitis Pigmentosa	
		Spinal Cord Injuries
